

Lungs

Announcer It's time for...What's That Mean?

Announcer Today: Lungs

Lumina Your lungs are amazing things! They bring oxygen into your body...and move carbon dioxide out of your body -- which is vital for life.

Chron Young kids might take a breath every 2 seconds. That's more than 40,000 breaths every day! Now, when your lungs are working like they should, your body gets all the oxygen it needs.
