

## Trivia Time (03)

**Overview**

Pop Quiz: Trivia Time

**Question 1**

What is the blue-ringed octopus known for?

**Choices**

A highly venomous bite, nine arms, deep diving ability, green ink

**Conclusion**

The blue-ringed octopus has a deadly bite. Its venom can kill an adult in minutes.

**Question 2**

Let's try another: If you have an intense fear of heights, what phobia do you have?

**Choices**

Agoraphobia, acrophobia, astrophobia, heliophobia

**Conclusion**

If you have acrophobia, being in high places can trigger things like anxiety and panic attacks.

**Question 3**

And finally, what machine might be used in a lab to study blood samples?

**Choices**

Colorizer, compactor, inverter, centrifuge

**Conclusion**

A centrifuge spins blood samples to separate blood into its different components. Did you get it?
